

ZESA HOLDINGS (PVT) LTD

POWER SUPPLY UPDATE

ZESA Holdings would like to advise its valued customers countrywide that there is limited power supply in the national grid due to a technical fault at Hwange Power Station.

The technical fault will result in load curtailment of about 368 MW today (4th August 2021) and customers will be updated as the situation improves.

Restoration of service to optimum levels is underway and customers are advised to use the available power sparingly.

The inconvenience caused is sincerely regretted.
