

Econet Vision

Devices that can converge their lifestyle

=

INTRODUCING SMART PHONE BUNDLES

- Currently High Value Customers are receiving the same service as all our other customers in terms of product offering, service and attention at all customer touch points.
- The Econet Business Solutions Team has come up with a new contract handset financing scheme for this peculiar group of customers.
- With this new offer, the cost of the devices will be spread over the 24 month contract tenure.
- Efforts were also made to ensure that the retail prices of the devices are also in line with major competitor pricing models.

How It Works

- A two-year renewable contract with a set minimum airtime usage per month offering Post-paid voice, SMS service and data.
- Bundled with latest smart phones.
- Hybrid package – subscribers can top-up after exhausting monthly allocations (can use commercial recharge cards or the receipting system.)
- Flexible package
- Monthly bills and statements

How much do I pay?

Device Plan	Smart Plan 15	Smart Plan 20	Smart Plan 30
Device Value	\$125.00	\$170.00	\$410.00
